Re: Consent Order No. 31-07-02
Compliance Program Section IV(a).(4.)
Stormwater Discharge Permit Application
Williamsburg Receiving & Storage
ISE Project # 02399084-07E

Gentlemen:

This communication is intended to provide Michigan Department of Environmental Quality (MDEQ) staff the Storm Water Discharge Permit Application Revised certification as required pursuant to the referenced Consent Order which became effective August 16, 2002.

On January 9, 2003, Williamsburg Receiving and Storage, LLC revised the Storm Water Pollution Prevention Plan (SWPPP) for the site. This revision was prompted due to the on-site construction activities which took the Munro Road outfall out of service. A copy of the revised certification is included for your review and use.

Please call me at (231) 933-4041 if you have any questions or require additional information.

Respectfully submitted,
INLAND SEAS ENGINEERING, INC.

Mindy D. Walters, P.E.
Project Manager

7.0 CERTIFICATION OF THE SWPPP

I certify under penalty of law that this SWPPP has been developed in accordance with good engineering practices. To the best of my knowledge and belief, the information submitted is true, accurate, and complete. In addition, at the time this plan was completed no unauthorized discharges were present. I am aware that there are significant penalties for submitting false information, including the possibility of fine or imprisonment for knowing violations.

President
(Title)

Retain a copy of this certification with the SWPPP and submit a copy with the original signatures to the MDEQ office in your area.

Note: Revisions made to the Storm Water Management Plan in January 2003, include:

1. General Facility Information: Number of storm water outfall changed from one (1) to zero (0).
2. Potential Sources of Pollutants (Page 3)- Outfall changed from Munro Road ditch to Sheetflow only, no outfalls
3. Re-certification by Chris Hubbell and Mindy Walters
4. Note on Figure 2 indicating that the former outfall has been removed.
